

Vote and Elect,

Dr. Jay Shah. MD

For 4th District, LA County Supervisor

**Committed to values, dedicated to service and all-round efficiency
The way health care is today, I decided to run to improve & serve**

Dr. Jay Shah, known for integrity and with record of 35 years in selfless public service makes him an ideal candidate for LACS. He has honest answers to the present day problems from healthcare to corruption. He is for the people, a true leader who can make tangible difference in LA county governance. A friend of all, who can be reached easily for your any genuine problem.

We, the residence of county, need a County Supervisor who can be trustworthy and efficient and can bring real changes by working hard and not just by mere talks. Give back CO government to people from the hands of vested interests. 12 years of mismanagement is enough. All 5 supervisors are in post of absolute power for more than 12 years. **"Enough is enough."** This is a wake up call for County Communities to elect a candidate whom you can trust and vote confidently. **STOP BIGOTRY AND RACISM**
