

PRESS RELEASE May 4 2008

Dr. Shah has received tremendous support and encouragement from thousands of people who are resident of the 50 cities in 4th district of LA County. Even from communities as far away as San Francisco and New York plus nearby counties like Orange, Riverside, San Bernadino and Ventura Counties.

Dr. Shah gave 200 word statements to register of county and he mailed it to all registered in English. People can request to receive the mission statement in their native language (like Spanish, Chinese, Korean, Philippine, etc.)

Dr. Shah Repeatedly challenges other two candidates to discuss issues important to the people, but has not received a response. This is not fair for the people of the county. I think that more than eight years in office corrupts politicians and those who are more than eight years in office in USA are enemies of the people.

Please spread the word I am here to help the people.
